Dear hiring manager,

I am applying for this position as it would be a once in a life time opportunity and I also believe that I would be a good addition to your team for the duration of the internship. I am a passionate and aspiring game engine programmer. The window that game engines provide into digital worlds has always fascinated me and I dream of one day being a part of a team that always aims to level up or re-structure this window, and I believe Epic is that team.

Although I may not meet all of your requirements, I believe that my passion, drive, dedication and willingness to learn will enable me to be a contributing member of your team and assist with tackling challenges when they arise while picking up some Epic skills and knowledge.

I am aware that my residential location may also affect the selection process, but if at all possible, I am ready to do all I can and take the necessary steps in making this once in a life time opportunity a reality and embark on an Epic adventure to give back to the company that inspired me to pursue a career in this industry.

Sincerely,
Yankho
